

DANCING SPRINKLES

You can see the energy of soundwaves as the sprinkles dance to music from your speaker!

1 MIXING BOWL

Find a mixing bowl large enough to hold a battery-powered bluetooth speaker.

2 BLUETOOTH SPEAKER

Place the speaker inside the mixing bowl (make sure the speaker is on and the volume is turned up).

3 PLASTIC WRAP

Cover the top of the mixing bowl with clear plastic cling wrap (make sure the speaker is in the bowl and turned on).

4 SPRINKLES!

Place some sprinkles on top of the plastic wrap right over the speaker.

5 PLAY SOME MUSIC!

Pick some music with a booming bass and turn it up! The sprinkles will dance all around!
